

Something Better Natural Foods Case Discount Program

Something Better Natural Foods is pleased to present case discounts on some of our most popular individual items. These discounts are based on the regular price of the product and will not be applied to sale prices. To receive the case discounted price - you must do the following:

1. Order the minimum quantity indicated to get the discount.
2. Order on one line item. This is very important. Our computer system will **not** compile quantities to figure the discount. It will only recognize the discount if you place the entire quantity for that item on one line. If you have additional quantities of the same item elsewhere in your order they will not be sold to you at the discounted price.
3. These discounts are for full cases of individual items - flavors may not be mixed & matched.
4. The discount will not show up in our shopping cart, but will be reflected on the confirmation we email to you.

**Remember the discount only applies if you purchase the minimum listed quantity (or more) of an identical item ó no mixing & matching of flavors available.

Below is a partial list of Brands with case discounts available. Please see the downloadable catalog for a complete list of case discounts available. Not every product by a listed manufacturer has a case discount available.
